One out of five students are affected by dyslexia. Your support for this event will help us provide Ohio's dyslexic children with testing and diagnosis as well as specific training for educators working to provide one on one instruction for dyslexic learners. COBIDA provides awareness programs and related learning opportunities for parents and students to help ensure success for students with this neurologically-based condition. COBIDA establishes relationships with local organizations to provide ongoing information about early intervention and research-based reading instruction for dyslexics, their families, and their educators.

Back by popular demand

Our second annual COBIDA fall event promises to be more fun and more exciting than last year. For those of you who attended our premier event, the stakes were high but this year our sponsors and you, our supporters, will help us create an event that you will look forward to for many years to come.

Nestled in the heart of historic downtown, the Columbus Athenaeum gives our 20s themed evening an added flair with its Art Deco details—it feels like you have stepped back in time! So come dance and dine to the sounds of renowned singer and piano-man Dwight Lennox and his combo, and enjoy a silent auction, cash bar and newly added dessert station.

Our hope is that you will mark your calendars every year to come and kick off the holiday season with COBIDA.
